Subject: Re: Next Facilitated Meeting-

All: The next technical call re Haskell Lake has been set for 22 May with LDF, LCD, WDNR and REI. As Kristen points out below, a separate meeting between EPA and the Tribe has been requested. The first question is whether this is still primarily a side-bar technical discussion, or is it time for a meeting of the managers? I suggest you review and update the agenda provided by the Tribe, decide who should attend and choose a format (phone or in person). Let's find the nearest workable date. Thanks.
